Pendahuluan
Introduction

Indonesia merupakan salah satu negara kepulauan yang kaya akan sumber wisata hayati dan bahari. Tidak hanya itu saja, potensi sumber daya alam dan budaya yang melimpah menjadikan Indonesia sebagai salah satu destinasi tujuan utama wisata dunia. Setiap daerah di Indonesia memiliki keunikan tersendiri dalam hal adat istiadat, seni, dan tradisi.

Sektor pariwisata merupakan salah satu sektor penting dalam membangun Indonesia. Selain dapat memberikan devisa negara, pariwisata juga dapat menciptakan lapangan pekerjaan baru bagi masyarakat lokal.

Pandemi COVID-19 yang melanda sejak awal tahun 2020 menjadi kondisi terburuk bagi perekonomian dunia termasuk Indonesia. Hampir semua sektor mengalami penurunan. Secara masif, aktivitas perekonomian pariwisata menurun sangat dalam dan berimbas terutama bagi daerah yang hanya mengandalkan pariwisata dalam perekonomiannya, seperti Bali.

Dengan berjalannya waktu, kondisi pariwisata di tahun 2023 semakin menunjukkan pemulihan. Pemerintah terus meluncurkan berbagai program dan kebijakan untuk mendukung sektor pariwisata pasca pandemi COVID-19. Pengembangan pariwisata berupa program yang tepat sasaran sangat dibutuhkan untuk meningkatkan jumlah kedatangan wisatawan mancanegara (wisman).

Beberapa strategi yang dapat dikembangkan untuk pariwisata internasional antara lain: meningkatkan infrastruktur pariwisata, mempromosikan pariwisata secara agresif baik wisata halal, memberikan kemudahan berwisata ke Indonesia, memperkenalkan produk pariwisata yang

Indonesia is an archipelagic country, rich in biological and marine tourism resources. Not only that, the potential for abundant natural and cultural resources has made Indonesia one of the world's top tourist destinations. Each region in Indonesia has its uniqueness in terms of customs, arts, and traditions.

The tourism sector is one of the crucial sectors in Indonesia's growth. In addition to providing foreign exchange for the country, tourism can also create new jobs for local people.

The economic activity of the tourism sector has declined very profoundly and has had an impact, especially on regions that rely only on tourism in their economy, such as Bali.

The state of tourism in 2023 was gradually improving over time. The government continued to improve tourism conditions by launching various programs and policies to support the tourism sector after the COVID-19 pandemic. Targeted tourism improvement programs are needed to increase the number of international visitor arrivals.

Several strategies that can be developed for international tourism include: improving tourism infrastructure, promoting halal tourism aggressively, simplifying travel to Indonesia, introducing unique tourism products, improving service quality, establishing cooperation with other countries, and providing international

1. Bangkitnya Pariwisata Pasca Pandemi

Kunjungan Wisman 2023 terus mengalami pemulihan.

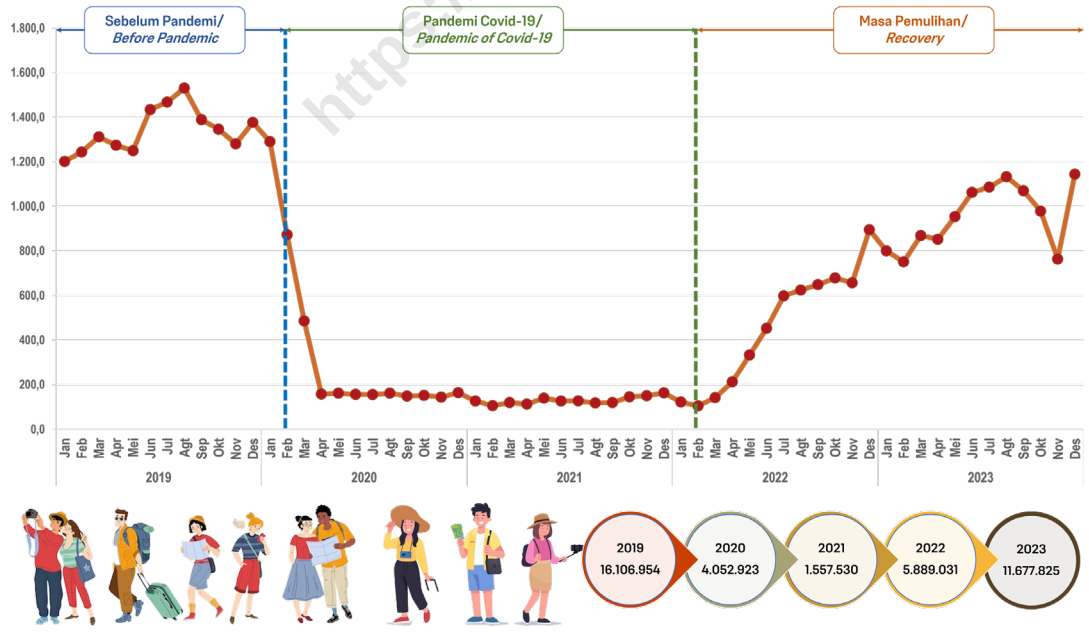

Wisata balas dendam yang terjadi pada tahun 2022 menjadi salah satu pemicu perubahan pola kunjungan wisatawan mancanegara. Revenge tourism, yang secara harfiah berarti 'perjalanan wisata balas dendam', muncul sebagai dampak COVID-19 yang membatasi kebiasaan Masyarakat bepergian ke luar negeri. Fenomena ini ditandai dengan meningkatnya aktivitas masyarakat yang secara beramai–ramai datang mengunjungi sejumlah destinasi wisata yang sudah diizinkan beroperasi. Tren kunjungan masa pemulihan atau recovery ini mengalami peningkatan tiap bulannya sampai dengan akhir bulan Desember 2023. Dibandingkan tahun lalu, rata-rata kunjungan per bulan meningkat dari 5.889.031 ke 11.677.825 atau sebesar 98,30 persen di tahun 2023.

1. The rise of post-pandemic tourism

International visitor arrivals continue to recover.

The revenge tourism that took place in 2022 has become one of the triggers of the change in the pattern of international visitors. Revenge tourism, which means a "revenge tourist journey", emerged as the impact of COVID-19 that restricted people's habits of traveling abroad. This phenomenon is characterized by the increasing activity of the people who massively come to visit several tourist destinations that have been allowed to operate. Trend of recovery has been increasing every month until the end of December 2023. Compared to last year, average monthly visits went up from 5,889,031 to 11,677,825 or rose by 98.30 percent in 2023.

2. Kebangsaan

Kebangsaan Malaysia masih mendominasi total kunjungan wisatawan mancanegara ke Indonesia Tahun 2023.

Kesimpulan
Conclusions

https://www.bpkgo.id

https://www.bps.go.id

Kunjungan wisman di tahun 2023 terus mengalami pertumbuhan yang positif yang telah dimulai sejak 2022 setelah dua tahun lebih diterpa pandemi COVID-19. Jumlah kunjungan wisman di 2023 mulai mendekati angka sebelum pandemi dengan kenaikan sebesar 98,30 persen dibandingkan dengan tahun sebelumnya. Adapun lama kunjungan di Indonesia sudah mulai kembali seperti sebelum pandemi sejak tahun 2022.

Peningkatan kunjungan wisman tahun 2022 didorong oleh "revenge tourism" atau liburan untuk membayar dua tahun dibatasinya akses wisata akibat pandemi. Momentum bangkitnya pariwisata di Indonesia sejak tahun lalu tersebut didukung dengan berbagai upaya pemerintah menyelenggarakan perhelatan internasional. Begitu pula di tahun 2023, terdapat banyak perhelatan internasional diselenggarakan di Indonesia.

Wisman berkunjung ke Indonesia melalui tiga jalur pintu yaitu jalur udara, jalur laut, dan jalur darat. Kedatangan wisman di 2023 paling banyak melalui Bandara Ngurah Rai, Bandara Soekarno-Hatta, Pelabuhan Batam, Pelabuhan Tanjung Uban, dan Bandara Juanda.

Wisman yang berkunjung ke Indonesia pada tahun 2023 sebagian besar berkebangsaan Malaysia, setelah itu diikuti oleh wisman berkebangsaan Australia, Singapura, Cina, dan Timor Leste. Jika dilihat berdasarkan jenis kelamin, wisman yang berkunjung ke Indonesia didominasi wisman yang berjenis kelamin laki-laki dan wisman di usia produktif. Khusus wisman dari negara Oseania yang banyak berkunjung ke Indonesia yaitu wisman usia lansia.

International visitor arrivals in 2023 continued to experience positive growth after more than two years of being negatively impacted by the COVID-19 pandemic. The total number of foreign visitors in 2023 started approaching the pre-pandemic numbers. Meanwhile, the duration of visit of foreign tourists in Indonesia had begun to revert to pre-pandemic levels in 2022.

The increase in foreign tourist visits in 2022 was driven by "revenge tourism" or holidays to pay off two years of restricted access to tourism due to the pandemic. The momentum for the rise of tourism in Indonesia has been supported by various government efforts to organize international events. Likewise, in 2023, there were many international events held in Indonesia.

International visitors arrive in Indonesia through three entrance routes: air, sea, and land. Most of the arrival of international visitors in 2023 were at Ngurah Rai Airport, Soekarno-Hatta Airport, Batam Port, Tanjung Uban Port, and Juanda Airport.

Most foreign tourists visiting Indonesia in 2023 were Malaysian nationals, followed by foreign tourists from Australia, Singapore, China, and Timor Leste. Looking at international visitor arrivals by sex, foreign tourists visiting Indonesia were dominated by males and those who were in the productive age. In particular, most of the foreign tourists from Oceania were elderly tourists.
